

## Lesson Plan

### Preposition Playbook

**Book:** *Aaron Donald: Football Star*

**Series:** Biggest Names in Sports

**Level:** Navigator

### Objective

To help students practice using prepositions and explaining their functions in specific sentences.

### Supplies

- *Aaron Donald: Football Star* book
- Preposition Playbook Words (attached)
- Whiteboard
- 2 tables
- Preposition Playbook Statements and Answers (attached)

### Before the Activity

Have students read the *Aaron Donald: Football Star* book. Print two copies of the Preposition Playbook Words and cut them apart so that each word is on a separate slip of paper.

### Activity

Start by reviewing what a preposition is. Explain that a preposition is a word that tells how a noun or pronoun is related to other words in a sentence. For example, write the following sentence on the whiteboard and underline the words *through*, *in*, *toward*, and *with*:

- Donald darted through the opening in the offensive line and thundered toward the quarterback to bring him down with a hard tackle.

Explain that all the underlined words are prepositions. Each one shows a different relationship. *Through* and *in* show the location of Donald's movement. *Toward* shows the direction of Donald's movement, and *with* shows how Donald brought the quarterback down.

Divide students into two teams. The teams should sit at separate tables. Place a set of Preposition Playbook Words on the table in front of each team. On each team's turn, read one sentence from the Preposition Playbook Statements and Answers out loud. But instead of reading the preposition listed in red, say the word *blank*. Students should choose a word from the table in front of them to fill this blank. Give students 30 seconds to make their choice. One student should hold the slip of paper with that word up in the air. If the team chooses the right

word, the team gets one point. The student can earn a bonus point by explaining the function of that preposition in the sentence. The student should say what nouns the preposition goes with or what relationship it explains.

Note: In some cases, students' answers may not match the word listed in red. However, if an answer is still grammatically correct and if students can explain its function in the sentence, accept that answer as correct.

### **Evaluation**

The team with the most points at the end wins.

### **Standards**

This lesson may be used to address the Common Core State Standards' language standards, grade 5 (L 5.1).
